ESSENTIALS

SteelCore™ Smokers Cease-Fire® Cigarette Butt Receptacle

Securely dispose of cigarette butts, with SteelCore™ Smokers Cease-Fire®! Polymer exterior and steel inner structure provides superior safety features and unmatched stability in an upscale housing. Handsome styling makes it ideal for entryways, break areas or anywhere people smoke outside of office buildings.

The cigarette butts are safely contained in a fire resistant, galvanized steel Ash Urn utilizing Cease-Fire® technology to automatically extinguish butts... no need to snuff them out. Exclusive water ballast provides 40 lbs. of stability – without sand or tie-downs. Rain protected dual-sided drop hole is sized to discourage unwanted trash. Elegant aluminum insert offers visual contrast and clear identification for cigarette butt use. Durable, long lasting polypropylene housing won't rust, dent or crack. Top self-locates into sturdy, impact resistant polyethylene base and is secured with hand-tightened screw. Top lifts off easily for maintenance.

Specially contoured housing is made of fade resistant, rustproof polypropylene with elegant aluminum insert for long lasting, attractive appearance in upscale settings.
